

Comfort Cream

Comfort cream was created by an amazing woman for her nephew Tristan. Tristan was diagnosed with a large brain tumor at the age of 2 and had to undergo chemotherapy. She wanted to put a safe cream on him that would provide comfort while he underwent therapy, not finding anything suitable on the market she decided to make her own.

Formulated with love and ingredients that are soothing, Comfort Cream is an amazing all-over body cream.

SP-CC

4 oz White Jar

Suggested Use: Apply to the entire body as needed.

Suggested Precautions: For external use only. Avoid direct contact with eyes. Rinse with water if direct eye contact occurs. Keep out of reach of children. If swallowed, get medical help right away. Stop use and ask a doctor if rash or irritation develops and persists.
