

Silk Facial Primer

Once you slide this inconspicuous primer between your skin and your foundation, you'll never know how you lived without it. It evens out coverage by filling in creases and fine lines and smoothing over rough patches, so your face appears flawless. The unique texture of this powdery gel is unlike any you've ever felt-it's not sticky or greasy. With its ability to keep oil in check, you'll even forget there were such things as makeup mishaps. Not for use on lips.
